-

Therapeutic Focus

- Hematologic malignancies
 - Translational and biomarker-driven studies
 - Precision medicine trials
-

Why SMY Pathology Consulting

- Subspecialty expertise led by a board-certified hematopathologist
- Regulatory-aware, CLIA-aligned consulting approach
- Collaborative, sponsor- and CRO-facing engagement model

Regulatory Alignment & Laboratory Framework

Laboratory Operations & Specimen Handling:

Specimen accessioning, processing, and technical laboratory procedures are performed in collaboration with a **CLIA- and CAP-accredited reference laboratory partner (Precipio)**.

SMY Pathology Consulting, LLC provides **hematopathology consultation, interpretive review, and clinical trial pathology oversight** in alignment with study requirements.
